

Advanced Substance Abuse Treatment Training for Professionals

CPD ACCREDITED

The programme is designed for **experienced counsellors** looking to upgrade their skills, **intern counsellors** working towards a credential, and **individuals** who are seeking employment in the addiction counselling profession

The course will focus on:

- Detailed information about identification of Substance Use Disorders
- Information about drugs, drug use and its related consequences in general, and specifically in South Africa
- Guidelines to understand the principles of addiction treatment.
- Focus on Evidence-Based Practices and other theories and models used in the field of substance abuse treatment
- Information about the recovery process and how to develop and maintain long term sobriety
- Information regarding the impact of substance use disorder on the family
- Development of professional counselling skills needed in the field of substance abuse treatment

Substance work is in my opinion specialised work. It was amazing learning from someone knowledgeable and secure in the field

Psychologist—Kimberley

The information is super relevant to our clientele and community at large

Occupational Therapist—Kimberley

Informative workshop. I did not expect to learn so much about something I thought I knew everything about.

Social Worker Kathu
